All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government). Please see our Prices and Specifications brochures or contact your local Peugeot Dealership for the most up-to-date prices and specification details for all models. CO<sub>2</sub> figures above are for a standard vehicle without any additional optional equipment. The addition of optional extras could increase the

certified CO<sub>2</sub> emission output. WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO<sub>2</sub> values of other vans tested to the same technical standard. The fuel consumption achieved, and CO<sub>2</sub> produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted pre and post registration; variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO<sub>2</sub> figures.
